Enid, O. T., Apri 19,-As was anticipated, the Popullst convention today resultof in a split, a small minority comprising the Cleveland, Pottawatomie and Greer county delegates, twenty-three votes in tion during the midst of the proceedings, and organizing a convention of their own. Otherwise, the convention was a decidedly tame affair, the cutand-dried precision of its movements incicating the complete surrender of the once-powerful Populist party to the Demcernts. The only reminder of the stirring scenes of former days occurred just before the bolt occurred, when the delagates accused each other of "boodling," "selling out" and other terms of opprobrium usually heard only in a Populist convention. The silm attendance of delegates, four counties not being represented at all, indicated that the party's dissolution was generally recognized, and the functial aspect of the proceedings accentuated this feeling. Most apropos therefore, was the speech of "Cupid Bob Neff, during an interim, in which the orator spoke a glowing epitaph com memorating the past glories of the great

The convention was temporarily organized by the selection of C. D. Shrader of Perry as temporary chairman, and lke Ferguson of Woods county and Thomas Phence of Grant county as temporary secretaries. On motion, the chair appointed the following committees:

He declared that the Populist party had been sold out and delivered into the Democratic party by a machine that is lubricated with Democratic oil. He accused Chalrman French, of the territorial central committee, of being in the pay of the Democrats, declaring that he had sold out the party and disgraced himself. In conclusion, he announced that he would wash his hands of the convention, and in response to his suggestion to the rear end of the hall, where they remained while Delegate French ansyered the "boodling" charges of Walls with recriminations of a similar nature.

Henryetta Will Wax Rich Among the Coal Fields.

BUILDINGS SPRINGING UP

Railroads Will Try to Beat One Another to It.

Henryetta, I. T., April 10 .- Just now the town of Henryetta-this being the name selected for the new tows now generally known as Henry-is in the throes of a building beem. Every day many new faces are seen on our streets, most of whom come to invest, while others come to enter into business or to watch a good thing pushed along. When a man comes here and does not seem particularly stuck on the place we simply take him out and show him the coal fields. That settles the matter, and he concludes that there is something in it, and there is no other one of us. During the past week the Ft. Smith and Western people have been running surveys through this section with a view of building a road from Ft. Smith to Oklahoma Citi. Railroad men and miners dub this place the Pittsburg of the southwest, and they say this country is full of coal, iron, lead, sinc and possibly copper, and when it is develone no section of the country will equal, it. These things are stimulating and building the town of Henryetta, and upon these our hones for the future are erests, we also have a magnificent farming country to assist in building the "greatest city" in the southwest. we do not wish to mislead any poor man, and will therefore say that this country will never be opened for homestead or pre-emption, but will be the individual property of the Indians. Each Indian will be given a title to 200 acres; of this he can sell at what price he chooses, all but forty acres, which he must retain for a homestead. This land will possibly sell for from \$5 to \$15 per acre.

The town of Henryetta is built in autiful little valley surrounded almost ntirely by mountains and is very plo presque; back from the hills or mounmins hes the farming country. No one who loves beautiful scenery will dislike

Peaceful Sabbath in Oklahoma. Guthrie, O. T., April :- The following exciting wolf story is told by the Medford Patriot: Last Sunday afternoon the junior editor of this paper and J. A. Atkins took a drive southeast of this city, being accompanied by their two grey hounds. Tom Longman, the genial bachelor assistant in the Long-Bell lum. ber yards at this place, also enjoyed the afternoon on his two choice farms south of town. As usual on a nice sunny spring afternoon, when time permits, Tom and two neighbors were basking in the sunshine and whittling sticks on the west side of a corn crib located on the premlees. But their quiet was soon to be disturbed, and in a very exciting manner One mile east of them a covote was sighted by the former party and the greyhounds put in chase. Making a bee line for where Tom and his friends sat ion of the event, all unsuspecting, the coyote, with the dogs turning him a summerset about tel, was the Hon. ON 30 DAYS' TRIAL rection, has become universal for the cure of nerve, glandular, organic weaknesses, rheumatism, sciatica, lumbago, varicocele, etc.

Nature demands a certain supply of natural Electricity, and if this supply is reduced by excesses, overwork, exposure, etc., weakness and debility are the results. To repair this weakness, nature must be paid. I pay nature by returning to her storehouse that which has been wasted and dissipated-this is electricity-which is the very essence of life itself.

Electric Suspensory for Men; with all Belts.

Dr. Sanden's Electric Belt

Why should suffering ones hesitate to try this cure by natural means?-a cure based on nature's laws. Of course there are thousands who are as yet unacquainted with the value of my great discovery, and to these I say I have decided for a time to allow my latest and most improved 1900 Model Belt to be taken on

THIRTY DAYS' TRIAL.

From this offer it is apparent that I am sincere in what I state. I will cure where drugs have falled, and it is my knowledge of this fact that warrants me in offering you my Belt on an Dava' I rial. "It cures while you sleep, and you pay when cured." Worn at night, it sends a pleasant, soothing current which you feel through the entire weakened organs, the suspensory stratchment to the belt resting directly over the prestate gland.
